

Sinclair Broadcasting has chosen to back and endorse a candidate by choosing to air "Stolen Honor". This is not news, but a political smear tactic against John Kerry. If it were news, it would have been news back in 1971..... not in the closing days of a presidential campaign. This use of the airwaves is disgraceful and amounts to full and complete backing of candidate George Bush for free using the excuse of calling it "news". You need to prevent this from being aired as it is interfering with the election process with blatant corporate media bias. This should not be allowed and it needs to be stopped before, not after it is aired.
